TECCA

We aim this collection to be a source of peace of mind that moves you to sunnier climes. Tecca collection creates an open space that exudes warmth by the materials that are selected to be enduring and set the tone. Constructed from aged teak, a unity of materials ensures a visual serenity. The natural earth colour softens the ambience and takes on a sober, yet sophisticated look and feel.

Its solid teak frame, which becomes even more beautiful over time, is supported by an invisible aluminium frame for maximum strength. The dining tables can be matched with chairs from several collections like Tugu, Yuna and Kudos.

NATURE

Nature collection comprises a complete dining setting as a statement to your garden. The beauty of raw teak makes every piece unique with an irregular touch. No table top or bench is the same and should therefore be regarded as a single piece. A solid teak table top has a thickness of 50 mm and charms with rough edges. Natural cracks are part of these items. The heavy top is supported by a sturdy powder coated aluminium frame with a sleek appearance.

Complete your dining setting with the accompanying bench or combine with armchairs from any other collection that suits your style. Nature offers a timeless setting to enjoy the outdoors with family and friends for many years to come.

The simplicity of its design is underscored by the beauty of premium raw teak. It makes every piece unique with an irregular touch. No table top or bench is the same and should therefore be regarded as a single piece.

Material SPECIFICATIONS

Our materials are always selected in function of intensive outdoor use and exposure to the sun. Jardinico only works with the best materials to ensure the best quality, added value and a luxurious appearance in any environment around the globe. Quality, aesthetics and durability are absolute top priorities. The best materials embrace all beautiful designs for you to enjoy the outdoors carefree for many years to come.

MATERIALS

All fabrics for the outdoor cushions from the furniture collection are 100% recyclable and high performance fabrics. They are manufactured from solution dyed acrylic yarns and are ideal for protection from the bright sun rays, wind and rain. The fabrics have been treated with a PU coating, which makes them stain and water repellent.

Performance

The fabrics are made of solution dyed acrylic. This means the colour of the fabric runs all the way through the yarn. The colour is added to the liquid solution that the yarn is extruded from. Only solution dyed fabrics keep their colour and are resistant to fading under the effect of UV rays when exposed to the sun.

Stain resistant & waterproof

All fabrics have a surface finish that makes the fabric water and stain repellent. A coating on the reverse side makes the fabric waterproof, mildew resistant and keeps its drying time to a minimum. Please consult our product data sheets or website to learn more on how to care and maintain your fabrics.

Fast stock

Canopies available from stock. We offer 'fast stock' to speed up the delivery time of our canopies. We selected a few fabrics of which canopies are held in stock in Belgium and can be delivered quickly. This service is subject to availability of raw materials worldwide. These colours are shown below with the following icon: 

It is always possible to order canopies that differ from the fast stock colours. A delivery time of six to eight weeks should be taken into account. An overview of all available fabrics can be found below.

FRAME

Clean an aluminium and wicker frame with a damp cloth, mild soap and water.
Do not use any sharp tool to avoid scratches.

Treat a teak frame with a teak protector to maintain its natural colour or a teak cleaner to make it impenetrable for liquids and dirt.

CUSHIONS

Before use, you can apply an invisible film to make your cushions stain and water repellent by using a textile protector. You can maintain and clean them by following a few simple steps:

- Brush off loose dirt before it becomes embedded in the fabric.
- Hose down.
- Spot clean soon after stains occur with water and mild soap or textile cleaner (no detergents). Use a soft bristle brush to clean.
- Allow soap to soak in.
- Rinse thoroughly.
- Always let cushions air dry completely before storing or covering.

Machine wash in cold water. Depending on wash load size, use normal amounts of mild laundry detergent and add 1 cup of bleach. Allow fabric to air dry.
Never subject to excessive heat, steam press or tumble dry as the fabric will shrink.
